Dum Vivimus, Vivamus

Several readers are calling our attention to our missing by one year out of 700 the anniversary of Dante (*i.e.,* Dante Alighieri, 1265–1321) in publishing the remarks "Swedenborg and Dante" in the Oct. 1964 issue. Very well! However, two readers, among our critics in this respect, have begun to cooperate to remedy the matter with a promise for another article involving Dante for a 1965 number. (Ed. We shall see!)
